Addictive, cute, a good way to waste some time.. The Space Garden has no instructions and no offline progress. Plantera is the

better version of this game.. Space Garden is cute & addictive. It's great way to waste some time if you want to play something but you don't want to pay that much attention. However, it's pretty short. I got over half the achievements in 2 hours of playtime. With that being said, it's worth the small price I paid for it. (I got it on sale.). Addictive, cute, a good way to waste some time.. It was a pretty good game at start but once you save, log out and try to log in the next day the save file will have completely glitched out and you will not be able to play the game ever again after the first play. Not worth the money.. Not worth \$4.99, so I picked it up on sale. not worth even the sale price. I really wanted to enjoy this game but it feels more like a mobile game that doesn't even have a lot of features to it. it's a simple clicker but it's not even fun. Cute. but not fun.. Enjoyable, non violent game that young ones can enjoy. Getting coins can seem slow in the beginning. It gets better after a little bit.. Space Garden is cute & addictive. It's great way to waste some time if you want to play something but you don't want to pay that much attention. However, it's pretty short. I got over half the achievements in 2 hours of playtime. With that being said, it's worth the small price I paid for it. (I got it on sale.)
